

Press Release

Levallois, March 3, 2009

Keyrus enters into partnership with GB and Smith, software publisher of the 360View™ security management solution for SAP BusinessObjects® XI

Keyrus, expert in Performance management consulting and Business Intelligence solutions integration, chooses 360View™ to increase its range of innovative solutions dedicated to performance management and to ensure the security of its clients' SAP BusinessObjects® XI platform.

Levallois-Perret, March 3, 2009 - Keyrus, an international specialist in performance management consulting and Business Intelligence solutions integration, announces that it has entered into GB and Smith's partnership programme "360View™ reseller partner". **GB and Smith** is the French software publisher of 360View™: the SAP BusinessObjects® XI security optimisation software (Release 2 and V 3.X).

Keyrus is partner to the biggest names in the software publishing industry and also to a large number of innovative players. It offers its clients spread all over the world consulting and integration services covering an extensive range of relevant and value added solutions. This enables **Keyrus** to make recommendations in an independent manner.

With this new partnership, which is wholly in line with its strategy, **Keyrus**, who has been named the 1st Business Objects VAR Platinum Partner several times, today offers its clients 360View™, a leading solution in the SAP BusinessObjects® intelligence platform security management market in Europe and the Americas.

360View™ comes across as an effective solution, in this period of global instability, for companies and organisations looking for simple and economical solutions that can be rapidly implemented so as to:

- 1) Ensure that their systems are more secure, and this by also simplifying security management;
- 2) Comply with the ever-increasing number of government regulations at a better price;
- 3) Optimise payroll expenses related to security management.

The 360view™ software suite therefore helps companies to respond in an effective manner to all 3 issues by offering powerful and intuitive functionalities that provide a simple and exhaustive overall view of the SAP BusinessObjects® XI security matrix and that make it possible for users to obtain :

- A complete security audit for objects (Universes and documents), people involved (users and groups) and across-the-board restriction rights;
- In-depth and cascading cleaning of repositories;
- Greater security management via dynamic matrixes.

360View™ is also Sarbanes-Oxley (SOX) and Basel standards-compliant.

Alexandre Biegala, Vice President of GB and Smith, stated that, *“Our clients are looking to build various capacities to meet all kinds of conformity issues and to ensure that all the SAP BusinessObjects security issues are under control.”*

“With 360View™, a security management solution for SAP BusinessObjects®, we are able to ensure that the various requirement levels of our clients are met. We can also provide the latter with the conformity and the efficiency in terms of expenses they need in order to operate in different markets around the world.”

*“We are excited that **Keyrus**, who is recognised internationally for its expertise in the Business Intelligence domain, promotes our products in major markets”, said Sébastien Goiffon, CEO of GB and Smith. “The combination of **Keyrus’** proven application consulting and technology services and 360view security management software will deliver the business value, compliance and cost savings that companies need to compete effectively today.”*
